Course Description:

This course will provide prospective licensees with the knowledge necessary to prepare for the Illinois Real Estate Broker examination.

The course reflects the most recent legislative changes and new practices in Illinois, and students will benefit from complete coverage of popular topics. Based on the industry's most recognized publication, Modern Real Estate Practice, you will find this course not only prepares students for the licensing exam, but also lays a solid foundation for a career in real estate. It contains everything a prospective licensee needs to become regulatory compliant in Illinois.

Students will learn the principles of real property law, interests, and forms of ownership. They will learn how contract agreements are entered into, executed, and closed for a handsome payday. From taxes to property management to financing and appraisal, this comprehensive course covers it all.
